

# Self-Reflection

## Are you ready to shoot for the stars?

### ARE YOU READY? Consider this:

- Are you aware of the CLASS assessment and the teaching practices it measures?
- Have you reviewed the domains and indicators of the Best Practice Rubric?
- Does your program have policies and procedures that address most domain areas?
- Does your program have proof of implementation of the indicators of the Best Practice Rubric?
- Does your program have a system to present resources and evidence? (Binder, file system, etc.)

If the majority of your answers were yes, it may make more sense to follow this path.

If the majority of your answers were no, it may make more sense to wait on your QRIS journey while you learn more or to follow this path.

## Assessment Path

## Enhancement Path

This path may be for you if:

- You are familiar and comfortable with the CLASS assessment.
- You have reviewed the Best Practice Rubric (BPR) and your site/agency has a policy and procedures system that addresses most domain and indicator areas.
- Your site implements many of the indicators on the BPR.
- You have a system for providing coaching/professional development for teachers.
- You have been through the pilot and were happy with your possible rating.

This path may be for you if:

- You would benefit from 6 months of technical assistance.
- You are unfamiliar with the CLASS assessment.
- You need assistance with one or more domains of the Best Practice Rubric (BPR).
- You need assistance in setting up your verification system.
- You have been through the pilot and need assistance with certain areas (BPR domains or CLASS) of the assessment.
