

Alabama Quality STARS: Quality Rating and Improvement System Best Practice Rubric Day Care Center Verification Manual

The Best Practice Rubric is designed to be cumulative, so that programs can choose only the indicators that fit their program structure. The Best Practice Rubric Verification Manual is utilized by Alabama Quality STARS Specialists during the Assessment visit, and it should be completed by programs as a self-evaluation to prepare for Assessment.

Instructions:

- For each indicator, select yes or no (Y/N) to indicate whether your program meets the criteria for the indicator.
- Gather documents needed to verify that your program meets the indicator and make note of your supporting evidence for later reference.
- Block out children's names/personally identifying information on all documents presented. Identify children by initials, number, symbol, etc.
- Documents should be organized, labeled, and gathered in one location (binder, file box) prior to an Assessment visit. Only the documents presented at the time of the Assessment will be considered. If no documentation is prepared at the time of the Assessment visit, no further review or observation(s) will be conducted, and the Assessment will result in an automatic denial (no new STAR rating awarded).

Indicators with special instructions are noted at the top of the domain. [Definitions](#) are noted at the end of the manual. For indicators that require a supporting document, those may be viewed at <https://alabamaqualitystars.org/assessment-criteria/>.

Definitions

- **Anecdotal notes** – Written observations of children’s actions and behaviors that document their ability and progress in a developmental area; anecdotal notes may include pictures or videos, quotations, and/or written descriptions of children’s actions, gestures, facial expressions, etc.
- **Assessment (*assessment tool*)** – On-going process of gathering information about children’s developmental progress, interests, strengths, and needs; includes on-going observation and provides information about development over time
- **Child-led** – Play and/or learning that is initiated by children and follows their lead; children create their own play scenarios, explore, and try their own ideas
- **Current** – Unless otherwise specified, dated within the last six (6) months
- **Developmentally appropriate** – Practice of designing instruction, strategies, and teaching practice based on what children are developmentally able to do cognitively, physically, and emotionally
- **Free play** – Unstructured, child-initiated play in which children select and control the use of materials, create their own play scenarios, and try their own ideas
- **Individualized** – Tailored to a specific child; based on developmental, physical, social-emotional, or environmental need, unique interests, and abilities
- **Learning environment** – In a center setting, typically refers to the classroom; the area that children regularly utilize, are allowed to actively explore for the majority of the day, and have access to at all times
- **Policy** – System of rules or guidelines that govern how a program operates
- **Positive discipline** – Method of guiding children’s behavior by explicitly teaching the social and emotional-regulation skills needed to meet behavioral expectations; teaches children what to do and employs logical consequences rather than punishment
- **Procedure** – The sequence of steps or actions detailing when and how a policy should be done and who is responsible
- **Routine** – Regularly occurring according to a fixed schedule (required frequency may be noted in indicator)
- **Screen time** – Any media content viewed on mobile phone, tablet, computer, television, video, film, and/or DVD
- **Screening (*developmental screening, screening tool*)** – Method of gathering information about children’s developmental progress and provides information about whether a child’s development is on track compared to widely-held expectations of typically developing peers
- **Structured** – *See Teacher-led*; time that it directed by the teacher
- **System** – A set of procedures and/or organized framework according to which something is done
- **Teacher-led** – Play and/or learning that is initiated by the teacher; time spent in direct instruction that is guided by the teacher
- **Unstructured** – *See Child-led*; time that is directed by the child
- **Valid and reliable** – Research-proven to measure accurately and consistently what the tool is intended to measure
 - **Reliability** – The extent to which a tool can be utilized accurately and consistently across users
 - **Validity** – The extent to which a tool measures what it is intended to measure
